EXCAVATOR PINS AND BUSHES

Pins & bushes may seem like minor components, but they play a vital role in the smooth & precise operation of your excavator. If pins & bushes are not changed over time, work quality can suffer:

- Minimising metal on metal friction
- Protects wear & tear on critical components
- Provide an improved & efficient friction free movement
- Maintains precise movement and accuracy

For a limited time only, we are offering a 10% discount on Pins & Bushes

5% Off Genuine Komatsu Oils

Komatsu Genuine oils are specifically formulated to meet the high performance of Komatsu engines and hydraulic systems – used as recommended in your operations manual, our full range of premium quality lubricants help to avoid oil consumption.

Komatsu Genuine Oils & Lubricants can also lower maintenance costs, improve reliability, productivity, efficiency and extend equipment life.

Using a poor-quality oil alternative can fail in protecting your engine, cause overheating and lower fuel efficiency.

The following oil varieties are in stock, and available off the shelf:

- Engine Oil
- Hydraulic Oil
- Powertrain Oil
- Axle Oil
- Coolant

Available until the 1st May with 5% off the list price!

Click here for more information on our range of oils and how they benefit your machine.
